ALLURI SAI SWAROOP

saiswaroop.alluri@gmail.com | +1-(757) 364-1947 | Herndon, VA 20170 | **WWW:** Bold Profile

Professional Summary

Staff-level Mobile Engineer with 7+ years of experience building and scaling consumer-facing mobile applications across iOS, Android, and cross-platform frameworks. Proven expertise in mobile architecture, performance optimization, API-driven systems, and production reliability. Strong collaborator with product, backend, and design teams, with hands-on leadership in delivering secure, high-availability mobile platforms used by thousands of users.

Skills

- iOS development (Swift)
- Android development (Java)
- Cross-platform frameworks
- Web development (React.js)
- TypeScript and JavaScript
- State management (Redux)
- HTML5 and CSS3
- Backend development (Java Spring Boot)
- Node.js and RESTful APIs
- Cloud services (AWS Lambda)
- Firebase messaging
- CI/CD practices
- Containerization (Docker)
- Continuous integration (Jenkins)
- Database management (MySQL, MariaDB, MongoDB)
- Architectural patterns (MVVM)
- Modular architecture
- Event-driven systems
- Version control (Git)
- API testing (Postman)
- Development environments (Android Studio, Xcode, Visual Studio

Experience

MAP Communications
Senior Application Developer
03/2021 - Current

- Led development of cross-platform mobile applications (React Native & Xamarin) supporting mission-critical communication services for enterprise customers.
- Designed and owned mobile architecture (MVVM), ensuring scalability, maintainability, and consistent performance across Android and iOS.
- Built and integrated secure RESTful APIs using Java Spring Boot; deployed via AWS Elastic Beanstalk with CI/CD pipelines.
- Delivered customer-facing mobile features including billing, call recordings, messaging, payments, reminders, and notifications, directly impacting customer engagement and retention.
- Implemented biometric authentication, WatchOS notifications, internal chat systems, and intelligent call-forwarding workflows.
- Integrated third-party services including Auth0 (authentication) and external chat platforms.
- Acted as mobile release owner: managed App Store & Play Store submissions, crash monitoring, hotfixes, and production rollouts.
- Built internal on-call scheduling tools to improve operational

efficiency and response time.
- Tech: Swift, Java (Android), React Native, TypeScript, Java Spring Boot, AWS, MySQL, Node.js

Starchase LLC
Full Stack Application Developer
05/2019 - 03/2021

- Developed and scaled mobile and web applications for asset tracking and fleet management platforms.
- Implemented real-time location tracking and incident response systems using Google Maps and third-party APIs.
- Designed event-driven, MVC-based applications with strong emphasis on performance and reliability.
- Built and consumed REST and SOAP services, improving data exchange across distributed systems.
- Led Android and iOS deployments, ensuring platform parity and release stability.
- Improved app performance and stability through unit testing, profiling, and bug-fix initiatives.
- Tech: Swift, Java (Android), React, Spring Boot, PHP (Laravel), MySQL, Google Maps API

Old Dominion University
Mobile Developer - Graduate Research Assistant
12/2017 - 08/2019

- Developed sensor-driven mobile applications (iOS & Android) for healthcare research focused on dementia patient agitation detection.
- Built ML-powered pipelines using accelerometer, gyroscope, heart rate, and audio data to trigger real-time alerts.
- Implemented microservices with Java Spring Boot to support scalable backend processing.
- Delivered production-ready research applications used by clinicians and researchers.
- Tech: Swift, Java, Python, TensorFlow, Firebase, Google Cloud Platform

Old Dominion University (IBHERT)
Full Stack Developer - Graduate Research Assistant
03/2017 - 08/2019

- Built a Slack-like real-time messaging platform using LAMP stack technologies.
- Implemented authentication, authorization, 2FA, and activity analytics.
- Designed Java-based microservices and backend systems supporting mobile and web clients.

Education

Old Dominion University | Norfolk, VA
Master of Science in Computer Science
08/2019

Lovely Professional University | India
Bachelor of Science in Electronics & Communication Engineering
05/2017

- https://github.com/saiswaroopalluri

Certifications

- Android Developer Nanodegree, Udacity
- React Developer Nanodegree, Udacity

Awards

First Place - Hackathon 2019 (Dominion Enterprises), Built AR-enabled mobile features integrated with Google Maps to enhance Homes.com mobile experience.

Core Skills

iOS (Swift), Android (Java), React Native, Xamarin Forms, Flutter, WatchOS integrations, React.js, TypeScript, JavaScript (ES6), Redux, HTML5, CSS3, Java Spring Boot, Node.js, AWS Lambda, RESTful APIs, Firebase Cloud Messaging, AWS (Elastic Beanstalk), CI/CD, Docker, Jenkins, MySQL, MariaDB, MongoDB, MVVM, Modular Mobile Architecture, Event-Driven Systems, Git, Postman, Android Studio, Xcode, Visual Studio
